

TECHNICAL Publications of the International tin research
and Development Council. Series A.

AMSTERDAM, BUNGAY, SUFFOLK, PARIS, LONDON

- 241357 22. HOTHERSALL, A.W. and W.N. Bradshaw. Improvement in the quality of tinplate by superimposed electrodeposition of tin. 1935.
- 241365 23. CHALMERS, Bruce and W.D. Yones. Striations in tin coatings on copper. 1935.
- 284583 24. KENWORTHY, L. The atmospheric corrosion and tarnishing of tin. 1935.
- 241352 25. MONK, R.G. and H.Y.T. Ellingham. Electrodeposition of tin alloys from alkaline stannate baths. 1935.
- 241361 26. MACNAUGHTAN, D.Y. and B.P. Haigh. The mechanical properties of tin-base alloys. 1935.
- 285106 27. BAIER, S. and D.J. Macnaughton. The electrodeposition of bronze using bronze anodes. 1936.
- 285104 28. BÉCHARD, C. The electrodeposition of bronze using Bi-metallic anodes.
- 241335 29. HARINGHUIZEN, P.J. and D.A. Was. Research on thin layers of tin and other metals. I. The influence of thin metal layers on the deterioration of technical insulating oils By- 1923.
- 241379 30. HOAR, T.P. The corrosion of tinplate. 1936.
- 285145 31. HANSON, D. and W.T. Pell-Walpole. The constitu-

tion of the tin-rich antimonytin alloys.1936.

- 285147 32. JONES,W.D. Influence of surface cuprous-oxide inclusions on the porosity of hot-tinned coatings on copper. 1936.
- 285143 33. DANIELS,E.J. The hot-tinning of copper the attack on the basis metal and its effects.1936.
- 333034 34. MACNAUGHTAN,D.J. and Hedges,E.S. Some recent investigations on the corrosion of Tin. 1935.
- 335042
- 335053 36. HOAR,T.P. and Havenhand,D. Factors influencing the rate of attack of mild steels by typical weak acid media. 1936.
- 335042 37. HOTHERSALL,A.W. and W.N. Bradshaw. Methods of detinning tinplate for examination of the thickness and continuity of the alloy layer. 1936.
- 335054 38. HOTHERSALL,A.W. and J.C. Prytherch.A study of the origin of porosity in the tincoating of tinplate. 1936.

- 333772 40. CLARK, R.E.D. The detection and colorimetric determination of tin by means of substituted 1:2-dimercaptobenzenes. A specific reagent for tin. 1936.
- 333774 41. CLARK, R.E.D. The preparation of substituted benzeno-dithiols for use as specific reagents for tin. 1936.
- 333773 42. STUCKERT, L. Opacifiers in wet and dry enamels. 1936.
- 335055 43. HANSON, D. and W.T. Pell-Walpole. A further study of the constitution of the cadmium-tin alloys. 1936.
- 333775 44. CHALMERS, Bruce. Micro-plasticity in crystals of tin. 1936.
- 333776 45. BERTRAM, S.H. The retarding effect of stannous salts on the oxidation of olein and oils. 1936.
- 333777 46. SMITH, D.M. The spectrographic analysis of tin. 1936.
- 333497 47. TAFFS, H.J. The preparation of tin and tin alloys for microscopic examination. 1936.
- 340362 48. KERR, R. and D.J. Macnaughtan. The production of black anodic coatings on tin and tin alloys. 1937.
- 333043 49. JACKSON, C.J. G.R. Howat & T.P. Hoar. Discoloration and corrosion in canned cream. 1936-1937.

- 333044 50. GUERTLER, W. and M. Pirani. The systems tin-germanium and tin-beryllium. 1937.
- 339273 51. HARINGHUIZEN, P.J. and D.A. Was. Research on thin layers of tin and other metals. III. The interaction between metal and lubricating oils. 1937.
- 334516 52. MACNAUGHTAN, D.J. W.H. Tait and S. Baier. The tinning of steel strip by electrodeposition Part I. Electrodeposition and polishing of tin coatings of tin on steel. Part. II. The effect of deformation on the protective value of hot dipped and electrodeposited tin coatings on steel. By D.J. Macnaughtan and J.C. Prytherch. 1937.
- 333492 53. LEYMAN, R.E. The effect of cold-work and annealing on the hardness of some tin-antimony tin-antimon-copper and tin-antimony-silver alloys. 1937.
- 340584 54. CHALMERS, Bruce. Precision extensometer measurements on tin. 1937.
- 333490 55. HANSON, D. and W.T. Pell-Walpole. The determination of cadmium in tin-rich alloys. 1937.
- 339271 57. HOMER, C.E. and Plummer, H. Mechanical properties of some white bearing metals and other tin-

base alloys at various temperatures. 1937.

- 333496 58. GREENWOOD, H. The tensile properties of a series of white-metal bearing alloys at elevated temperatures. 1937.
- 340583 59. HOARE, W.E. Variation in thickness of the tin coating of tinplate, and its effect on porosity. 1937.
- 333498 60. CUTHBERTSON, J.W. A plane bending apparatus with interferomet strain recorder for metallurgical investigations. 1937.
- 340562 61. HANSON, D. and W.T. Pell-Walpole. The constitution of tin-rich antimony-cadmium-tin alloys. 1937.
- 335223 62. HANSON, D. and W.T. Pell-Walpole. A study of the mechanical properties of tin-rich antimony-cadmium-tin alloys. 1937.
- 333494 63. HOAR, T.P. The corrosion of tin in nearly neutral solutions. 1937.
- 333495 64. CHALMERS, Bruce. Surface tension and viscosity phenomena in tinplate manufacture. 1937.
- 333493 65. STUCKERT, L. Stannic oxide as opacifier in wet enamels. 1937.

- 333491 66. CHALMERS, Bruce. W.E.Hoare and W.H.Tait. Measurement of the Thickness of tin coatings on steel by a magnetic and an electro magnetic method. 1937.
- 332993 67. MACNAUGHTAN, D.J. Some differences between the structure of electrodeposited and hot-dipped metal Coatings. 1937.
- 333029 68. CHALMERS, Bruce. The influence of the difference of orientation of two crystals on the mechanical effect of their boundary. 1937.
- 333030 69. CLARK, R.E.D. The colorimetric determination of tin by means of Toluene-3:4-dithiol /"Dithiol"/ 1937.
- 335224 70. JONES, W.D. A study of some pf the factors controlling the porosity of hot-tinned coatings on copper. 1938.
- 333043 72. JACKSON, C.J. G.R.Howat & T.P.Hoar. Discoloration and corrosion in canned cream. 1936-1937.
- 339274 73. RIVETT, F.A. "Frostiness" in plumbers solder. 1938.
- 339275 74. HARINGHUIZEN, P.J. and D.A.Was. Research on thin layers of tin and other metals. IV. Further investigation on corrosion by oils. 1938.

- 339270 76. GONSER, B.W. and E.E. Slowter. The coating of metals with tin from the vapour phase /Standardising/. 1938.
- 339272 77. DAVIDSON, A.C. The constitution of the alloys of tin with Bismuth. 1938.
