236910

No. 28. (Serial 9.) Adams, Oscar S. Application of the theory  
of least squares to the adjustment of  
triangulation. 1915.

237796 No. 32 (Serial No. 16.) Description of the United Sta-  
tes Coast and Geodetic Survey Tide-  
Predicting Machine No. 2. 1915.

237635

No. 40, 50. Bowie, William. Investigations of gravity  
and isostasy. 1917.

236972

No. 57. (Serial No. 110.) Adams, Oscar S. General theory of  
polyconic projections. 1919.

237950

No. 58, III. General instructions for precise and secondary  
traverse. 1919.

Biblioteca Universității  
din Cluj

237928

No. 60. (Serial No. 113) Adams Oscar S. A study of map pro-  
jections in general. 1919.

237798

" 61. " 120.) Lambert, Walter D. Physical laws  
underlying the scale of a sounding  
tube. 1920.

238018

No. 67. (Serial No. 143.) Adams Oscar S. Latitude develop-  
ments connected with geodesy and  
cartography. With tables, including a  
table for Lambert equal-area meri-  
dional projection. 1921.

236878

" 68

" 146. Deetz, Charles H., and Oscar S. Ad-  
ams. Elements of map projecti-  
on with applications to map and  
chart construction. 1921.

237819

" 69.

" 150 Swick, Clarence H. Modern metho-  
des for measuring the intensity  
of gravity. 1921.

237803

No. 71. (Serial No. 159.) Reynolds, Walter F. Relation between  
plane rectangular coordinates and  
geographic positions.

236911

Serial No. 166. Harard, Daniel L. Directions for mag-  
netic measurements. Second edition.  
1921.

237773

No. 80. Serial No 183. Lambert, Walter D. An investigation of the latitude of Ukiah, Calif., and of the motion of the pole. 1922.

236871

" 81 " 186. Bowie, William. Geodetic operations in the United States, January 1, 1912 to December 31, 1921. (Report to the Section of Geodesy of International Geodetic and Geophysical Union, International Research Council.) 1922.
